INDEX TO VOLUME 4

Astronomy of Eudoxus (L. Wright), 165

Bacon, Francis, In Defense of (M. Horton), 241
Berzelius, Methodological Issues in (J. Brooke), 47
Bloor, David, Wittgenstein and Mannheim on the Sociology of Mathematics, 173
Books received, 105, 393
Brooke, John, Chlorine Substitution and the Future of Organic Chemistry, 47

Carozzi, A. V., essay review of G. Davies, *The Earth in Decay*, 289
Cavendish, Henry, his Deduction of the Electrostatic Inverse Square Law (J. Dorling), 327
Chalmers, A. E., Maxwell's Methodology and his Application of it to Electromagnetism, 107
Chlorine Substitution and the Future of Organic Chemistry (J. Brooke), 47
Conceptual Foundations of Contemporary Relativity Theory (J. Graves), review by A. Janis, 300
Conceptual Structures and Scientific Change (G. Gutting), 209
Crucial Experiments, Their Role in Science (I. Lakatos), 309

Davies, G. L., *The Earth in Decay*, review by Carozzi, 289
Dorling, J., Henry Cavendish's Deduction of the Electrostatic Inverse Square Law, 327

Earth in Decay (by G. Davies), review by A. Carozzi, 289
Essay reviews, 105, 193, 289, 387
Eudoxus, his Astronomy (L. Wright), 165

Feyerabend and Galileo (P. Machamer), 1
'Form of Intuition' and 'Formal Intuition' in Kant (P. Krausser), 279

Galileo, Feyerabend and (P. Machamer), 1
Graves, J., *Conceptual Foundations of Contemporary Relativity Theory*, review by A. Janis, 300
Gutting, G., Conceptual Structures and Scientific Change, 209

Horton, M., In Defense of Francis Bacon, 241

Janis, A., review of J. Graves, *Conceptual Foundations of Contemporary Relativity Theory*, 300

Kant's Theory of Experience and Science (P. Krausser), 279
Kepler Symposium, review of by D. Whiteside, 387
Kirschenmann, P., review of E. Wigner, *Symmetries and Reflections*, 193
Krafft P. *et al.* ed., *Internationales Kepler-Symposium*, review of by D. Whiteside, 387
Krausser, P., 'Form of Intuition' and 'Formal Intuition' in Kant, 279

Lakatos, I., The Role of Crucial Experiments in Science, 309
Logic of Discovery and Justification in Regulatory Genetics (K. Schaffner) 349

McGucken, W., *19th Century Spectroscopy*, review by C. Maier, 95

Machamer, P., Feyerabend and Galileo, 1
Maier, C., review of W. McGucken, *19th Century Spectroscopy*, 95
Mannheim, K. and Wittgenstein on the Sociology of Mathematics, (D. Bloor), 173
Maxwell, J. C., his Methodology and Application of it to Electromagnetism (A. Chalmers), 107

Nineteenth Century Spectroscopy (W. McGucken), review by C. Maier, 95

Role of Crucial Experiments in Science (I. Lakatos), 309

Schaffner, K., Logic of Discovery and Justification in Regulatory Genetics, 349
Schagrin, M., Whewell's Theory of Scientific Language, 231
Symmetries and Reflections (E. Wigner), review by P. Kirschenmann, 193

Whewell's W., Theory of Scientific Language (M. Schagrin), 231
Whiteside, D., review of F. Krafft *et al.* eds., *Internationales Kepler-Symposiums*, 387
Wigner, E., *Symmetries and Reflections*, review by P. Kirschenmann, 193
Wittgenstein L. and Mannheim on the Sociology of Mathematics (D. Bloor), 173
Wright, L., The Astronomy of Eudoxus, 165
